25X1 1. There was a large airfield near Maudorf/Silcaia, which was intermittently occupied by more than 30 aircraft. A sizable number of Polish officers and a Soviet liaison officer were billeted at the field. *

25X1 * [] Comment. The report probably refers to the former German advanced airfield at Maudorf (P 51/D 01), southwest of Oppeln. This is the first post-war information on the installation, the pinpoint location of which is unknown. The report indicated only that the field is still serviceable and that it may be used occasionally as an alternate airstrip by a Polish pilot school.
